

# BUILDING WORLD BABYLON

By FRED FARREL

The blueprint of Babylon is always the same.

The architects of Babylon are always the same kind of men. They are fundamentally the same in 1970 A.D. as they were in the year 3,000 B.C. They are men who are devoted above all else to building Babylonish monoliths of social, intellectual, and financial power. They sometimes claim to have other interests in life; they may claim to be either Communists or anti-Communists. They even claim to be interested in such abstractions as Truth or Justice or Progress. In fact, their only real interest in life is the creation of Babylonish structures. Today their aim is expressed in the term "World State." The world is in the process of constructing the biggest and best Babylon of all history. It is to embrace the entire planet. It is to embrace every race and nation and people. Nobody is to be allowed to escape the World Babylon. Its gargantuan resources of intellectual and financial power are deemed unbeatable. This is the basic concept of the World State; it is to be the biggest and best Babylon of them all. Its proponents believe that it will dominate history for centuries. This is the classic "Tower of Babel" fallacy which haunted men at the dawn of history. The fact is that Babylon today is still what it has always been; the sign on the wall still says MENE, MENE, TEKEL, UPHARSHIN.

Superficially, the U.S.A. appears to be a country where great controversies constantly rage. Our noisy election campaigns are made to look important by the paid quacks of political charlatanry; actually, our elections have lost all basic importance. People now constantly gallop around the American landscape shouting that they are "Saving us from Communism." Others shout that the Marxist utopia is at hand. Recently, a businessman delivered a speech in which he roundly defended the good old "Free Enterprise System." Later, in the club bar, he told me that he thought unemployment should be engineered at five per cent to check inflation. In a genuine Free Enterprise system it would not be possible to "engineer" unemployment at a certain level. It would be inconceivable even to talk of such a matter. This humbug did not believe in "Free Enterprise." He believed in **BABYLON THE GREAT**, the great, delightful Mystery, the great harlot who sits upon the many waters.

The fact is that just about every great American "Crusade against Communism" is a fraud. Marxism is the cornerstone of world Capitalism; not of American Capitalism, not of such enterprisers as Henry Ford; but of the all-encompassing Babylonish World Capitalism of the great banks. V. I. Lenin said, "Socialism would have been impossible without the help of the great banks." He should have known; the great banks of New York deposited **FIFTY MILLION DOLLARS** to his account in a Stockholm bank at one time!

Many American Evangelical preachers gallop all around the country predicting the early arrival of Christ's Kingdom here on Earth. When we strip away the bombast and humbug, what is the so-called "Christ's Kingdom" whose early coming they predict? It is **BABYLON**, the World State, made by and ruled by the American Establishment, through its manipulation of the basic Jewish idea of Marxism. Christ himself said, "My Kingdom is not of this World." Realists know that Christ's Kingdom will never be of this world. The harlot apostate Evangelists deftly evade all of the great basic realities. They are working at the same business as the Marxists. They are upbuilding Babylon. Don Bell has pointed out in one of his recent bulletins that the world struggle today is a **RELIGIOUS** battle. The ruck of "pseudo-controversy" about "Economics," which indeed still entrances many people, is meaningless. There is no battle between "Communism" and "Free Enterprise." The great American Capitalists

"Nearly all of the most distinguished and effective leaders from Lenin down, came from the middle and upper classes; few indeed among them are actual workers and peasants . . . . The early revolutionary movement in Russia did not originate with the masses, but was brought to them by intellectuals."

WILLIAM Z. FOSTER,  
Former President Communist Party, USA

are and always have been the principal financial backers of World Communism. Why? **BECAUSE THIS IS PART OF THE PLAN FOR BUILDING THE WORLD BABYLON.** With Marxism, unruly working-class people can be controlled by organizing them into fraudulent "proletarian" movements, which are under the secret control of the great banks. The ignorant provincial bourgeoisie can be kept under control by organizing them into mediocre "Conservative" movements, which are under precisely the same control. Thus the building of Babylon is greatly facilitated. The stupid agitators who manipulate public opinion are carefully trained and strictly disciplined. The proletarian agitator must always howl about the "welfare" of the poor; this is a subject about which he cares nothing; but he must howl about it anyway. The "Conservative" must also be a great charlatan. He must evoke nostalgia; he must lead his followers into pleasant dreams of returning to the "Good Old Days" of the McKinley Administration. He must pander expertly to the most shallow class vanities of the provincial bourgeoisie. He must play expertly on their fears. The Left Wing agitator and the Right Wing agitator are too often on the same payroll and working for the same purpose. They are builders of the great World Babylon. The Evangelical preachers are also on the same payroll; they also upbuild Babylon, while they yap like dogs about the "Coming of Christ's Kingdom on Earth." Christ's Kingdom, as envisioned by them, is the same as the Communist utopia; it is bait which leads the masses onward as they toil and moan, building the World City.

The Evangelical cults are far gone in apostasy. Indeed, they are engaged in one of the most abject surrenders to the Temple of Mammon in the whole history of Theological gangsterism. Two generations ago most of the clergy were "On the Right." Today most of them are "On the Left." One sees them everywhere, screaming for integration, marching in protest parades. The clergy became apostates a hundred years ago, when for the first time they were drawn skillfully into the "Right-Left Orbit." It was no chore at all to switch them from the Right Wing to the Left Wing; it needed only a few flicks of the money masters' whip. The reverend clergy were for all practical purposes already slaves of the money power. A hundred years ago, they could prance and snort and denounce "Godless atheistic Communism" in a so-called

"Conservative" way; they remained carefully shallow, and did not investigate the fact that Marxism was financed in the beginning largely by the Rothschild bank. Once the clergy were sucked into the "Right Wing" they were hooked; later, when it was desired to transfer them to the "Left Wing," they were not even consulted; they were simply **told** brutally. Now you can see how helpless they really are, as you watch them march in a Civil Rights parade, and hear them mouthing the asinine pabulum of the New Left.

You can see also their utter worthlessness as moral teachers. Today there is a boom in pornography; if we peer behind the smoke screen, we see that the purpose of this pornography is purely **POLITICAL**. There is a definite connection between the churches and the pornography racket. This curious **dualism** indeed extends into every corner of American life. The interplay between pornography and the morality taught by the churches is glaringly obvious to the sophisticate. In politics, public opinion is managed through a controlled interplay between Right and Left; in sex morality, the public is to be managed by an interplay between pornography and the official morality. Thus the American pornographer cannot write really entertaining pornography; he cannot match **The Thousand Nights and One** or the **Decameron**; he must stick to the dullest and most utterly stupid forms of "dirt." By the same token the clergy cannot teach a really vital and dynamic morality; they must stick to something useful to the politicians of Babylon. The pornographers and the reverend clergy are tied to the same chariot wheels.

**Everybody must bow down before Mammon.** The Communists and the anti-Communists, the atheists and the clergy, the pornographers and the moralists, all toil and moan as they labor to build the world Babylon. The intellectual apparatus of the world Babylon is largely Jewish; the Jew is the charlatan deemed best fitted to supply the monstrous and damnable falsities which the architects of Babylon deem to be the best intellectual cement for holding their structure together. The Jew is the Marxist, the Leftist; but, surprisingly, he also turns up in the John Birch Society. He is lauded in **American Opinion** as the "Great Achiever" of American life. The real Jewish intellectual invention is not merely Marxism; it is the complex Right-Left System, under which everybody is channeled either to the Right or to the Left. These two roads turn out to be like the paths in Alice's Wonderland. There are two signs: one says, "To Tweedledum's house," the other says, "To the house of Tweedledee." The Communists and the anti-Communists will lead you along the road which pleases you best, to the same destination in either case.

Who are the enemies of Babylon?

The Medes and the Persians are the enemies of Babylon. It is military predators who write the words mene, mene, tekel, upharshin upon the walls of Babylon. To its builders, Babylon is the shining "World Dream." To the military predators, Babylon is merely potential loot and plunder. The Medes and the Persians look upon Babylon and its people with a malevolent collective sadism. The best discussion of this subject probably was written by St. John on the island of Patmos in the year 96 A.D. It is called the Book of Revelation and is incorporated into the Bible. The earlier Book of Daniel also discusses this same basic subject, of course. Here we see one of the grim eternities, the great realities, delineated in a clear-cut manner. Today's Jewish intellectuals appear to be in a kind of collective mental "Babylonian Captivity." They are all busy trying to destroy the grim realities, to talk away the sadism of the Medes and the Persians, to drown the less laudable aspects of the human spirit in a sea of mediocre Jewish prose. The bitterest anti-Semite does not fear that the Jews have any chance of success. It is the Medes and the Persians who always win these battles; it is the beast which always devours the Great Har-
